INFORM THE STOCK MARKET

The members of the Board of Directors, the General Manager and his collaborators, have regret the sensitive death of Dr. Wilder Rivera Márquez Financial and Administrative Manager of Riopaila Agrícola S.A., which occurred on August 17 of this year.

During his working life, he was widely recognized for his great intelligence, dedication to service and dedication to the company, in addition to his good sense of humor and respectful treatment of all people.

We had the privilege of having their contributions and advice for many years, always standing out for their totally independent position, with the aim of building and providing solid lessons that will last over time.

To his wife, sons and other relatives and friends, our feelings of regret and solidarity at this time for the departure of a great human being and an exemplary senior Executive.
